

TEZENIS

OHMY20s!

Twenty years have passed since a simple idea and an invented name became a current reality. My first thought goes to all the people who in some way gave their contribution to Tezenis success. Some of them made part of this journey, some changed their role, other are still here and everyone built a piece of this beautiful history. A huge thank you to everyone.

Like all young people in their twenties we already did so many beautiful things, but there is plenty left to do and there are also many goals to be achieved.

Like many young people, now we are facing a little bit critical moment.

But we are confident that we will come out from this period stronger and more matured, ready for new challenges and for new goals.

This Tezenis celebration is dedicated to you and represents a thank you for the past and a greeting for a future full of success and satisfaction.

With my kind regards,

Sandro Veronesi
